

LAHDAN

LAHDAN STEEL STRUCTURE MANUFACTURING LLC

Our Promise to Serve You the Best...

MISSION

To be a leading light organization that is sensitive to the environment and society, meeting the expectations of all stakeholders with the highest quality, resource utilization, and sustainable production.

Vision

To become one of the leading companies among all the industrial companies in UAE with a high value product content of 1 million tons of reinforcing steel production.

Values

- ✓ Contribution to society.
- ✓ Safe, healthy, quality working lives for our people.
- ✓ Product that creates sustainable infrastructure. 5- Provide training for competent and motivated team

From the CEO Desk

The steel industry is a significant & essential sector for the economy of any country. It plays a vital role in construction and development to fuel rapid economic & social growth. It also serves as one of the indicators to assess the economic prosperity and social stability of a nation.

The future is filled with challenges and opportunities. I firmly believe that we at LAHDAN STEEL will rise up to these challenges and emerge victorious in all our endeavors.

We at LAHDAN STEEL believe in our responsibility towards Safety, Society & Environment. We are a sustainable manufacturer under the CARES Sustainable Constructional Steel (SCS) scheme certification and Responsible Sourcing of construction products standard BES 6001. This ensures that we make our products using responsibly sourced materials. It also certifies our focus on continual improvement in energy efficiency, greenhouse gas emissions, transport impact, waste management & positive engagement with our local communities.

Regards

Mohammed Musthafa

Getting Started

Who are we?

LAHDAN STEEL STRUCTURES MANUFACTURING LLC is based in the Jurf 3, Ajman, UAE, and was set and run by Mr.Mohammed Mustafa and Muhsin Musthafa who have been at the forefront of some of the most innovative and exciting products to enter the meat and slaughter house, wire drawing machines, welding electrodes plant, sugar mill plant, tyre recycling plant, construction machinery, all types of plant and machinery customized ,Animal Rendering Plant market and all kinds of industrial fabrication. With over 20 years' experience in providing services to the meat industry, we are the first choice for many butchers. **“Our promise to best service ever.”**

What We Do Best

LAHDAN STEEL STRUCTURES MANUFACTURING LLC is specialized in providing the meat slaughtering industry and animal rendering plant with equipment and supplies. We are a specialist medium sized firm, providing latest machineries and tools required for an ideal slaughter house, rendering plant , meat processing machinery, welding electrodes plant, wire drawing machinery, and all kind of industrial heavy fabrications which will help you for hygienic, quality and quantitative manufacturing of the product. We might also want to mention a few of our most impressive clients here:

- 1.Neema Livestock & Slaughtering Investment Limited-Nairobi Kenya
 - 2.Junior Trading - Togo
 - 3.New Age Energy – Nigeria
 - 4.Eagle Continental Foods Ltd. – Dasna, India
 - 5.Neetoo Industries - Mauritius
 - 6.Eastern Stone Mix - Mauritius
 - 7.Nexol SRL - Peru
 - 8.Ruben Cohen - Mexico
 - 9.KMI Trading - Saudi Arabia
 - 10.AI Janim Trading - Palestine
 - 11.Gama Civic - Mauritius
 - 12.Feign International - Bangladesh
 - 13.Niagara Industries - USA
 - 14.AI Tabarak Frozen Foods Pvt. Ltd. – Aligarh, India
 - 15.Poineer Feeds Industries – Hyderabad, India
 - 16.Praveen Leather Goods – Loni, India
 - 17.AI Yasir Frozen Foods Ltd. – Meerut, India
 - 18.Universal agro Pvt. Ltd. – Alipur , India
 - 19.Vet Feed India Ltd – India
 - 20.Javed Qureshi Exports – Mumbai, India
 - 21.Maharashtra Frozen Foods – Punjab, India
 - 22.Ferme Avicoile Gade Gui SARL – Senegal
 - 23.Juja International Laboratory - Kenya
 - 24.Union Meat Abattoir – Dar Es Salaam-Tanzania
- And more available upon request.

OUR PRODUCTS AND SERVICES

Buffalo Slaughter

LAHDAN STEEL STRUCTURES MANUFACTURING LLC supply complete cattle lines, integrating the design, manufacture, installation and the commissioning. We have the capability to build all equipment in-house giving a clean, pleasing and marketable appearance. Our system offers trouble free operation with minimum amount of maintenance required.

Sheep/Goat Slaughter Equipment

All our systems are designed to meet individual client requirements. We have the capability to build all equipment in-house giving a clean, pleasing and marketable appearance. Our small stock processing equipment is entirely made from stainless steel for cleaning, hygiene, appearance and maintenance benefits.

Batch Rendering Plant

The conventional batch dry rendering process is characterized by its simplicity and versatility. All kinds of animal raw materials can be treated in this process. The crushed raw material is heated, cooked and dried in the batch cooker, before the fat is separated in the high-pressure press.

Welding Electrodes Plant

With wide expertise in this domain, we have come up with wide range of Welding Electrode Manufacturing Plant. Our producing capacity varies from 1 MT per shift to 12 MT per shift. The manufacturing unit consists of Wire straightening and cutting machines, Mixers, Briquetting press, extruder, wire feeder, conveyor and Baking Oven. Offered by us, these welding electrode manufacturing plants are fabricated using supreme grade raw material from our authentic vendor base to ensure that these are in accordance with international quality standards and norms.

Wire Drawing Machinery

LAHDAN STEEL STRUCTURES MANUFACTURING LLC has established itself as one of UAE's leading names in the field of Wire Drawing Machines, Wire Cutting Machinery, Wire Making Machinery with our promise of quality products that stay ahead of time. **The LAHDAN STEEL STRUCTURES MANUFACTURING LLC** of Companies is an integrated conglomerate of engineering companies engaged in manufacturing all types equipment and the accessories used in making Alloy Steel, Carbon Steel, Mild Steel, Stainless Steel and other Non-Ferrous Wires.

The Company works on the solid foundation of the very latest technology and the best equipments, supported by a team of highly qualified and well-trained personnel. In a short span of time, it has become one of the leading names in UAE as well as abroad as manufacturers of superior quality Wire Drawing Machines, Wire Cutting Machinery, Wire Making Machinery.

Tyre Recycling plant

Used tyres are among the largest and most problematic sources of waste today, due to the large volume produced and their durability. The same characteristics which make waste tyres a waste problem also make them one of the most re-used waste materials. Recycled tyre chips can be used for TDF (Tyre Derived Fuel) which is a fuel used for heat plants and cement ovens or for equestrian (i.e., rubber mixed with sand or sawdust used in the horse industry as ground in the stable or at the tracks). Rubber granulate is reused in e.g., sports fields, artificial turfs, rubber mats and moulded products. Rubber powder can be reused in rubber paved asphalt. The recovered steel can be smelted and reused just like non-recovered steel. Finally, the liberated textile has a very high effective burning value and can therefore be mixed with other materials in order to increase that material's effective burning value.

LAHDAN STEEL STRUCTURES MANUFACTURING LLC have tyre recycling solutions for processing of all types of tyres; whole car and truck tyres including mining tyre, super singles, earth mover tyres, OTR etc. The capacity of the systems range from 1.500-8.000 kg/production hour. The system is "multi-size" which means that the size of rubber granulate easily can be changed by merely altering the screen combination. During production of rubber granulate flexibility is a very important factor since the market demand of various fraction sizes will vary.

SUGAR MILL

LAHDAN STEEL STRUCTURES MANUFACTURING LLC offers most innovative, convenient and profitable "Single window" solutions from design and manufacture to erection and commissioning of Complete Sugar plants, Co-generation plants, Industrial Boilers, Process House Equipment, Electrical Systems and Instrumentation etc.

From small equipment's like fibrizer and mills up to a complete plant, we at **LAHDAN STEEL STRUCTURES MANUFACTURING LLC** have carved a niche for ourselves during the last 25 years. The consultancy services backed by years of hands-on expertise in the industry, along with a rich knowledge bank have benefited our clients for over three decades.

EDIBLE AND NON-EDIBLE REFINERY

LAHDAN STEEL STRUCTURES MANUFACTURING LLC is one of the leading manufacturers, Supplier & Exporter of Turnkey project plant & machinery of vegetable oil refinery.

Vegetable oil refining can be done through physical & chemical process which, Mectech offers as per the customer's requirement.

The inherent harmful factors for human consumption like free fatty acids (FFA), gums, sediments, odoriferous and coloring materials present in crude oils are removed completely to make the oil edible. **LAHDAN STEEL STRUCTURES MANUFACTURING LLC** takes special care in all the stages and after undergoing the process of neutralization, bleaching and deodorization, the oil is safe and fit for human intake.

All types of Customized machinery and Other Industrial Fabrications and Service

We are actively engaged in providing world class Industrial Fabrication Services to our precious clients. These services are supported by qualified engineers and other technical staffs, who have immense domain expertise and are able to work under the ever-changing demands of the industry. The materials we use in fabrication process are procured from some of the most reliable vendors and stringently tested on various quality parameters. Our offered services are highly recognized in the market for timely execution, professionalism, reliability and cost-effectiveness. We render these Industrial Fabrication Services to our clients as per their needs, at the most affordable prices.

Why Lahdan Steel?

LAHDAN STEEL STRUCTURES MANUFACTURING LLC is a locally owned business, currently employing approximately 140 personnel. This includes fitters, certified welders, riggers, crane operators, drafts persons, mechanical engineers and administration staff.

Our varied range of Animal Rendering plant, Animal slaughtering line, Meat processing plant, welding electrode plant, wire drawing plant etc. Our team works for a well-designed & detailed drawing as per client requirement keeping all the points & technical issues in that. We give our best for quality as well as time schedule. We prefer full responsibility for our projects but will gladly work under your desirous direction and expertise. What makes us different is our approach to business. We believe our strength is how we build shared relationships that create new success for our customers.

We thrive for challenging fabricated design projects, where our broad multi-industry experience enables us to offer a fresh approach by redefining or simplifying design. We have established ourselves as one of UAE's leading names in the field of Machines & Fabrication services with our promise of quality products that stay ahead of time.

A super blend of engineering companies, we work on the solid foundation of the very latest technology and the best equipment's, supported by a team of highly qualified and well- trained personnel. In a short span of time, we have become one of the leading names in UAE as well as International Markets of South Africa, Saudi Arabia, Mauritius, Mexico, Florida as well as all over UAE as manufacturers of superior quality Wire Drawing Machinery, Industrial / Natural Gas Filters, etc.

It is our Endeavour to provide customers for quality products and value for money services. We'll be delighted to build long term business relations with buyers looking for fresh and innovative products along with timely delivery and competitive rates.

LAHDAN STEEL STRUCTURES MANUFACTURING LLC operates a state of the art blast & painting facility which can handle objects 24m long x 5m high x 6mwide. We have experience in industrial, commercial and architectural painting applications .

LAHDAN STEEL STRUCTURES MANUFACTURING LLC has the facility to provide labor hire requirements which include Riggers, Dogmen, Crane Operators and Trades Assistants.

Over 600 reputed clients globally and still growing thanks to its well structured and validated business model. Lahdan Steel is well-positioned to provide its customers with value-added solutions, leveraging a broad product portfolio on the one hand, and enhancing the entire value-chain quality, delivery, and services on the other hand.
